

## About Ilitha-leseding foundation

Ilitha-leseding Foundation, was established in 2009 by three young South African Social Entrepreneurs with an aim to bring development to disadvantaged High School learners to make them aware of higher education and how to obtain it. Realizing how resources were not reachable to most learners in townships and rural areas, they expanded their programmes to not only providing extensive career guidance workshops but to also implement functional libraries within the school facilities to aid learners and teachers to have access to reference material and develop a culture of information and reading. Their secret in making all of this possible was to mobilize a community of partnering organizations, institutions and individuals that shared the same passion to revolutionize the face of career development education in the country one school at a time.

### Our services

- Adopt a School Library- under this service we adopt high schools that have libraries but are lacking qualified librarians. We pro-

vide a full time librarian to keep the libraries functional, we also go the extra mile and donate books that we get from people, other libraries etc to this libraries, if the school doesn't have a library we make it possible by helping the school to identify any free public space that they can turn into a library.

- Adopt a Student- with the help of tertiary institutions, individual professionals and companies we offer email based industry related career mentoring services to tertiary students.
- Career guidance and mentoring workshops- with the help we get from tertiary institutions, NSFAS and bursary institutions we facilitate career development workshops at the schools to learners, informing them about further studies, career choices and how to finance their studies and apply.
- "Ilitha Teach"- Academic Tutoring service- we offer tutoring to struggling matric learners who need assistance in study skills and difficult subjects,
